This release presents a change in system usage methodology. The following procedure documents were updated accordingly.

1. Inventory Picks.docx

Resolution: Ceres was enhanced to address the reported issue by updating the 3 Ceres Picking List reports to support sorting by Gross Weight. A key to the Sales Line table and a key to the Warehouse Activity Line table were added to facilitate the desired sorting capability on the Picking Lists reports. A control was added to each of the report's request page to signal added code for the sorting by gross weight.
