

Read Me CERES4.50.46 Location Table Inv. Short Handling Method field validation (Ceres4.50.46)

Service Request or Support:

Issue addressed: On the Location table, the 'Inv. Short Handling Method' field is editable when the 'Exclude From Voxware' is set to False.

Type	ID	Name
Table	14	Location Table

This release presents a change in system usage methodology. The following procedure documents were updated accordingly.

1. Location Overview.docx

Resolution: Ceres was enhanced to address the reported issue by adding logic to the OnValidate trigger of the 'Inv. Short Handling Method' field on the Location table, to block the field from editing if the 'Exclude From Voxware' field is set to False.
