

Read Me CERES4.50.67 Grocery Rescue Import Enhancements (Ceres4.50.67)

Service Request or Support:

Issue addressed: The Grocery Rescue Import process can fail when there is no Bin Content record for a given item. This condition is normally the result of one or more Donation Orders failing to post. It is preferred that such order lines are created with no quantity, the related Agency Order marked as having an import error, a comment added to the Agency Order, and for processing to continue.

Type	ID	Name
Report	14012375	Grocery Rescue Import

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by performing a check to determine whether the required Bin Content exists. If it does, processing continues. If the required Bin Content does not exist, the Agency Order line is still created (but with no Quantity). Additionally, an Agency Order comment such as the highlighted one below is created. Grocery Rescue processing will then continue.

[Comment Sheet](#) ▾

Date	Comment
8/14/2017	Bin Content does not exist for Location Code=GR, Item No.=10026.
8/14/2017	Agency A0442 is not qualified for item 10026.
