

Read Me CERES4.50.77 Changing dates on DO or PO Header does not update the line Lot dates (Ceres4.50.77)

Service Request or Support:

Issue addressed: When the Posting Date, Order Date, or Expected Receipt Date on a Donation Order or Purchase Order is changed, Ceres asks if the related dates on the Lot (Expiration Date, Consume By Date, Ship By Date) should be updated. When the user answers that the dates should be updated, Ceres does not update the dates.

Type	ID	Name
Table	38	Purchase Header

This release does not present a change in system usage methodology.

Resolution: Ceres was enhanced to address the reported issue by modifying the UpdatePurchLines function to update the Lot Dates when the Expected Receipt Date, Posting Date, and Order Date change and the user indicates that they Lot Dates should be updated.
