

Read Me 4.51.47 Ceres Answer Options Error (Ceres4.51.47)

Issue addressed: When accessing the Answer Options page for a Ceres Question with Answer Type = Multiple Choice, the following error is encountered:

The field Answer Field No. of table Ceres Answer Option contains a value (XXX) that cannot be found in the related table (Field).

Page Edit – Ceres Answer Options must close.

Due to this error the user is not able to specify any Multiple Choice answers for the Ceres Question.

Objects Affected:

Type	ID	Name
Table	14012410	Ceres Answer Option

This release does not present a change in system usage methodology.

Resolution: With this release, Ceres has been enhanced to address the reported issue by updating the table relation for the “Answer Field No.” field to the correct table
