Purpose
The Movement Worksheet allows for the movement of product from a Receiving or Put-away (Storage) bin to a Pick bin for distribution on Agency Orders. Movements can be entered manually or by calculating replenishment using the Movement Worksheet functionality. To use this functionality, the Movement Worksheet Templates must first be set up for each Location that requires these types of movements.

*Ceres object release 4.00.00 is required for the functionality documented in this procedure.*

Setting up Warehouse Worksheet Templates

1. The Warehouse Worksheet Template can be created by going to Departments → Administration → Application Setup → Warehouse → Warehouse → Lists → Whse. Worksheet Templates.

2. A new template can be creating by clicking on Home → New from the Whse Worksheet Template List. Enter MOVEMENT in the Name field and Movement Worksheet in the Description field. Select Movement in the Type field and input 7351 in the Page Id field.
3. To access the Worksheet Names, click on Navigate → Names.

4. In the Edit – Whse. Worksheet Names – Movement Worksheet Page, enter the name of your Worksheet (i.e. KAN, etc.). Select the appropriate Location for the Worksheet, enter a meaningful Description, and then click OK.

5. Repeat the process and create as many Worksheets as needed for each location.
